

## Beware of Fraudulent COVID-19 Test Kits and PPE

Pharmacies are being inundated with companies promoting potentially fraudulent materials related to COVID-19 testing, including marketing FDA certification. The FDA is still in the process of reviewing many of these authorizations and have shared with us a few key points to help discern whether a company is legitimate.

The FDA list of all current authorized tests, **updated daily**, is on this page: <https://www.fda.gov/medical-devices/emergency-situations-medical-devices/emergency-use-authorizations#covid19ivd>

These FDA pages addresses available diagnostic and therapeutic medical devices to diagnosis and respond to COVID-19:

- [Coronavirus Disease 2019 \(COVID-19\) Emergency Use Authorizations for Medical Devices](#)
- [Personal Protective Equipment EUA](#)
- [In Vitro Diagnostic EUAs](#)

As of today, (March 29, 2020):

- There is no "Home Test" authorized for SARS-CoV-2 (COVID-19).
- There are emergency use authorized (EUA) point of care (POC) tests, but these tests are not CLIA waived.

Here is a list of Laboratories and Manufacturers that are Offering Tests for COVID-19: <https://www.fda.gov/medical-devices/emergency-situations-medical-devices/faqs-diagnostic-testing-sars-cov-2#offeringtests>

Any additional diagnostic questions should be submitted to: [COVID19DX@fda.hhs.gov](mailto:COVID19DX@fda.hhs.gov)

As a reminder, any concerns regarding fraudulent products, including tests, should be sent to: [FDA-COVID-19-Fraudulent-Products@fda.hhs.gov](mailto:FDA-COVID-19-Fraudulent-Products@fda.hhs.gov)
