

# EXPERIENCE TRANSPARENCY

## ABOUT

ClaritasPSM was founded by pharmacists who were dissatisfied with the status quo. We know what it's like to have patient care challenged by big business, and we believe that's not good enough. When you choose ClaritasPSM, you receive transparent, local attention, and a team who shares your mission of providing superior, sustainable care.

Community pharmacies face exclusion from preferred pharmacy networks and lack of reimbursement. Our ClaritasPSM Pharmacy Network (CPN), offers your pharmacy transparent medication reimbursement and hospice services including compounding, medication consulting, delivery, and after hour support.
