

APhA's Pharmacy-Based Immunization Delivery

Presented by the South Carolina Pharmacy Association
Friday, March 29, 2019 • 8:00 am - 5:00 pm
Registration from 7:30 am - 8:00 am

REGISTRATION DEADLINE: March 15, 2019

APhA's Pharmacy-Based Immunization Delivery certificate training program is based on national educational standards for immunization training from the Centers for Disease Control and Prevention. This practice-based curriculum represents a fusion of science and clinical pharmacy. The program, which emphasizes a health care team approach, seeks to foster the implementation of interventions that will promote disease prevention and public health. The purpose of this certificate training program is to prepare pharmacists with comprehensive knowledge, skills, and resources necessary to provide immunization services to patients across the life span.

The goals of this program are to:

Educate pharmacists about:

- The impact of vaccines on public health.
- Pharmacists' roles in immunization.
- Immunologic principles of vaccine development and immunizations.
- Vaccine-preventable diseases and the vaccines used to prevent them.
- Strategies for improving immunization rates.
- Requirements for pharmacists who provide immunization services.

Prepare pharmacists to:

- Read an immunization schedule and identify appropriate vaccines for individuals across the life span and with special needs.
- Educate patients about the benefits of vaccines and dispel myths about vaccines.
- Safely administer vaccines to patients via subcutaneous, intramuscular, intranasal, and intradermal routes.
- Operate an immunization service in compliance with legal and regulatory standards.
- Partner with immunization stakeholders to promote immunizations and the immunization neighborhood.

Direct pharmacists to resources necessary to:

- Promote public health through immunizations.
- Access regularly updated information about vaccines and their use.
- Effectively communicate with patients and other stakeholders about resources.
- Operate an immunization service in compliance with legal and regulatory standards.

Key Learning Objectives of the Live Training Seminar

At the completion of this activity, the participant will be able to:

- Describe strategies for increasing immunization rates, including physician collaborations, community level activities, and immunization coalition activities.
- Describe pharmacy operations and a process for administering vaccines in various pharmacy practice settings.
- Evaluate patient histories and make patient-specific recommendations based on the appropriate immunization schedule.
- Demonstrate effective strategies for communicating with patients who have concerns about vaccines.
- Describe current evidence regarding vaccine safety.
- Recognize the signs and symptoms of adverse reactions that can occur after vaccination.
- Describe procedures for management of patients with adverse reactions to vaccination that constitute an emergency.
- List the steps for administering currently available intranasal and intradermal vaccines.
- Demonstrate appropriate intramuscular and subcutaneous injection techniques for adult immunization.

For a complete list of learning objectives for the self-study and live seminar, please visit APhA's website, <http://www.pharmacist.com/pharmacy-based-immunization-delivery>.

Location:

SC Pharmacy Association
1350 Browning Road
Columbia, SC 29210

Faculty:

Kristy Brittain, PharmD, BCPS, CDE
Associate Professor, SC College of Pharmacy, MUSC
Patricia Fabel, PharmD, BCPS; Executive Director,
Kennedy Pharmacy Innovation Center at the USC College of Pharmacy

Continuing Pharmacy Education (CPE) Information and Activity Completion Requirements

Initial Release Date: 07/15/2017; expiration date: 07/15/2020
PLEASE NOTE: NO Home Study credit granted after this date; Live Credit can only be granted within 60 days from the day of the seminar attended.

Activity Type: Practice-based

Target Audience: Pharmacists in all practice settings

Activity Completion Requirements

To obtain credit for "Pharmacy-Based Immunization Delivery" complete home study activities, complete both home study and final assessments with a grade of 70% or better, attend the live seminar, successfully complete the injection technique assessment, complete the evaluation, and CLAIM credit. To obtain credit, the Learner must CLAIM credit once each component is completed. Once credit is claimed, Transcripts of CPE will be available online within 24 hours on the Learner's CPE Monitor profile at www.nabp.net. The Certificate of Achievement will be available online upon successful completion of the necessary activity requirements on the participant's "My Training" page on www.pharmacist.com.

Pharmacy-Based Immunization Delivery: A Certificate Training Program for Pharmacists was developed by the American Pharmacists Association.

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. The home-study portion of the Pharmacy-Based Immunization Delivery certificate training program is approved for 12 contact hours (1.2 CEUs) of continuing pharmacy education credit (**UAN 0202-9999-17-160-H06-P**). The live training seminar is approved for 8 contact hours (0.8 CEU) of continuing pharmacy education credit (**UAN 0202-9999-17-161-L06-P**).

Activity Requirements: Course material and exams will be accessed online. In order to participate in this activity, registrants must have access to a computer. Please visit APhA's website (<http://elearning.pharmacist.com/technology-troubleshooting>) to view technology requirements in order to have a positive learning experience.
