

Checklist For Talking To Your Pharmacist:

- What effects should I expect from my medication (how it should make you feel, when it will begin working)?
- How much should I take?
- How often should I take the dose?
- What time(s) of day should I take each dose?
- Should I take this medication with or without food?
- How long do I need to take the medication?
- What should I do if I miss a dose?
- What should I avoid eating or drinking while on this medication?
- Are there any restrictions on regular daily activities while taking the medication?
- What possible side effects can occur and what should I do if they appear?
- How long should I wait before telling the doctor that the medication is not improving my symptoms or condition?
- How should I store my medication?
- What is the expiration date of my medication?
- How should I dispose of any unused medication?
